

GERMÁN CACHAFEIRO BAMONDE

Junior Full Stack Developer

<https://gercaba.github.io/myportfolio>

PROFILE

Leaving the comfort zone to pursue personal fulfillment.

Throughout my career I have reached a high position in the world of Express Transport, however, I have decided to turn towards what I feel more curious, motivated and willing to invest my time.

EDUCATIONAL BACKGROUND

Full Stack Developer [MERN]

BootCamp Nuclio Digital School [octubre 2022 - marzo 2023]

Development of a **Slack clone** as a master project. Based on **React** and implemented using the following libraries: **Express, Moongose, Sockets, Cloudinary and Mailgun.**

The project was developed in **5 sprints of 2 weeks** using agile methodologies and together with 4 colleagues.

The project includes multiple components, contexts, API Wrapper, private routes, image upload among other developments.

My participation was very active involved in both **frontend and backend.**
